Version 2.0 of our app is available today! This complete re-design of our application give users a clean, easy to use interface with a few new bells and whistles...

Improved syncing of documents between your device and the NextPlans Cloud

Updated annotations interface and 100% compatibilty with Adobe Acrobat annotations.

Within the Planroom and Collaboration sections there is a NEW area called the WorkDesk. You can use the WorkDesk to keep documents readily available while you are working with them. Think of this as your digital drafting table.
