Sharpe Images is pleased to announce the acquisition of Car-Vir. Car-Vir, located in Goldsboro NC, is an electrical distribution company specializing in the di-electric testing of gloves, sleeves, blankets and line hoses for electricians and utility linemen. As a certified di-electric tester, Car-Vir has been servicing clients throughout the country for over 40 years.

"We have a lot of the same clients for different services so it seemed like an excellent opportunity to cross sell services and clients." says John Beachem, Sales and Operations manager of Car-Vir.

Sharpe Images will relocate Car-Vir to a larger facility in Goldsboro in the coming months and add printing, safety supplies, equipment, and software capabilities to the location. "We want to make sure we are able to provide all of our services to eastern NC. The addition of Car-Vir will allow us to increase our capabilities and footprint to better serve our clients." says Zane Sharpe, Vice President Sharpe Images.

Sharpe Images is a 65 year old family owned business. Headquartered in Winston-Salem, Sharpe Images also has offices in Raleigh, Charlotte, High-Point, Indian Trail and now Goldsboro. Sharpe Images provides printing, equipment, safety supplies, and customized software platforms, for the AEC communities.
